Dear Friends,

On behalf of the citizens of Maine, I write this letter in recognition of Case Management Week which is recognized from October 13th through October 19th.

As you know, case managers function in a variety of practice settings including hospitals, long-term care facilities, rehabilitation, eldercare, managed care, and occupational health, facilitating the coordination of continuing care services. Case management is essential to assuring the delivery of quality, appropriate, efficient and cost-effective healthcare services to patients in Maine and across the nation. Further, case management services enhance quality of life while promoting the achievement of positive healthcare outcomes.

As Governor, I encourage the people of Maine to recognize the contributions made by case managers in the delivery of quality healthcare in our state and across the country.

Thank you,
