## *Let CMSNE be your resource to reach Case Managers*

The Case Management Society of New England (CMSNE), is one of the largest regional chapters of the Case Management Society of America, and is recognized as the premiere professional case management organization in New England, promoting optimal case management practice and providing education and information to and about all levels and practice areas of case management. As a not-for-profit organization, we have provided professional education and networking for over thirty years to thousands of Case Managers and healthcare professionals throughout New England who represent the entire continuum of care. We would not be able to provide this service without the support of our Corporate Partners. Through the financial support of our Partners, we have been able ~~allowed us~~ to make great strides in meeting the demands of those we serve. CMSNE can only succeed through the generosity of our friends and supporters.

A copy of our Corporate Partner Benefit Packages are attached for your review and consideration. We have many benefits to help you meet your marketing and business needs while increasing your exposure to Case Managers throughout New England. The benefits included in the packages are intended to benefit your organization, colleagues and clients with memberships, complimentary and discounted conference registrations etc. Since the membership fee of \$35.00 per member cannot cover the expenses that CMSNE incurs during the year, we are seeking your support as a Corporate Partner, your partnerships are valuable to all that participate in our programs, conferences and utilization of our resources.

CMSNE assists case managers to enhance their professional skill sets by:

- Promoting optimal case management practice.
- Providing education and information to and about all levels and practice areas of case management.
- Advocating for the practice of Case Management by promoting public policy.
- Fostering professional development within a supportive environment.
- Promoting the highest standard of professional and ethical practice within the specialty area of Case Management.
- Educating the public, private and professional-sector about the profession of Case Management.
- Projecting a professional image to the public, private, and professional sector.

Please contact the CMSNE office to further discuss your interest in collaborating and supporting the chapter. Thank you for your commitment and dedication.

Sincerely yours,

Nancy Benoit, RN, CCM  
President 2021-23
