

Innovations in Orthopaedics – How New Innovations Impact the Case Manager’s Toolbox

Friday, June 24, 2022 8 AM – 4 PM

(6 CEU’s RN, CCM, NH Adjusters)

In person at Castleton, Windham, NH

Conference Overall Purpose Statement

Technological advances in the treatment of orthopaedic injuries have grown and expanded over the last few years. From surgery interventions that offer less invasive and faster recovery times, to the use of robotic-assisted surgery for the spine and knee to the use of laser treatment for pain reduction and the Platelet-Rich Plasma to enhance healing. Knowing how to determine if these options and interventions are appropriate for your patients/claimants is going to be the key focus of this conference. Explore with each of our speakers the evaluation process of determining appropriate candidates and the outcomes and benefits of these technologies. Hear through patient testimonies the impact that these technologies have had on their treatment and healing process. The conference will wrap up with discussion of Everyday Ethics differentiating between ethics and morals and providing a process to identify a framework for ethical decision making.

Sessions

Reverse Shoulder an Alternative to Traditional Shoulder Replacement

Douglas M. Goumas, MD, Sports Medicine Specialist, NHOC

Benefits of Robotic-Assisted Spine Surgery as it relates to Patient Outcomes

Matthew W. Wilkening, MD, Spine Specialist and Christian M. Klare, MD, Spine specialist, NHOC

Robotic-Assisted Knee Replacement Surgeries Creating a Better Balance

Kathleen A. Hogan, MD, Total Joint Specialist, NHOC

Orthopaedic Laser Therapy an alternative for Pain Treatment

Christian M. Klare, MD, Spine specialist

Platelet-Rich Plasma (PRP) Injections – How it works

Scott M. Evans, PA-C, Physician Assistant and Marc J. Michaud, MD, Foot & Ankle Specialist, NHOC

Everyday Ethics*

Teresa Williams, MSW, LCSW, Homecare Connect/Paradigm

This event offers 6 RN, CCM and NH Adjusters credits (*1 credit is approved for ethics for CCM & NH Adjusters). Registration fee is \$85 for CMSNE/NH Adjuster members, \$100 non-members. Exhibitor opportunities available.
