Advance Care Planning *for Health Care*

BETTER CONVERSATIONS.
INFORMED DECISIONS.
A HEALTHIER TOMORROW.

Cheryle Safford
LMSW, BCD

About This Program

This presentation is designed to help health care clinicians understand the value of completing an Advance Directive and how to share this information with patients and their families. Information will be provided on the importance of planning their health care journey with an Advance Directive first. This presentation will also provide a review of the Georgia and VA Advance Directives, contrast the differences between the State and Federal documents, and interpret the wording of life-sustaining treatments on the GA and VA Advance Directives.

Program Objectives

1. Clinicians should have a better understanding of the importance of completing an Advance Directive.
2. Clinicians should be able to provide a thorough explanation of the information provided in State or Federal Advance Directives.
3. Clinicians will be able to recognize the differences in life-sustaining treatment selections on a Federal and State Advance.

Wednesday, December 16, 2026
5:30 PM – 6:30 PM

Plan Today. Honor Tomorrow.

ADVANCE DIRECTIVES • PATIENTS • FAMILIES • BETTER CARE
